

rfidmarket

Epozy offers the new generation RFID on-metal tag with **70x30x1 mm dimensions** optimized for metallic assets and surfaces.

Thanks to its flexible material, the labels can be encoded and printed with major RFID printer brands.

Extended read range up to 8 meters on-metal and 4 meters on nonmetal surfaces offers a wide range of applications including IT asset management, container tracking, and more.

The ultra-thin, flexible, and soft features are especially suitable for curved metal assets.
