

rfidmarket

On metal PCB tag is manufactured with FR-4 material. It has IP68 protection level and is one of the best alternatives for outdoor waterproof, strong acid, and harsh environments. It has been designed and manufactured to use over 5 years in outdoor conditions.

This hard, real durable and rugged PCB on-metal tag allows operators to install the tag by screwing or attaching it with ultra-strong 3M adhesive alternatives.

It can even be laser printed on the surface of the tag for quick visual identification on the ground.

Key Benefits

PCB On-Metal Tag

- Hard and rugged tag
- IP68 protection level and best alternative for outdoor projects
- Installation by screwing, riveting, or 3M adhesive
- Barcode, number, or QR code laser printing

PCB On-Metal Tag (RFM-20100003)	
Material	FR-4
Dimensions	36x13x2.7 mm (LxWxT)
Working Temp	-40°C ~ +85°C
IP Rating	IP68
RFID Standard	ISO / IEC 18000-6 Type-C (EPC Gen2)
Chip Type	UCode 7
EPC Memory	128bit
TID Memory	96bit
User Memory	32bit
Read Range (2W ERP FCC)	8.5 meters on metal
Installation	3M adhesive, Screw
Customization	Printing Logo, Serial Number, encoding, etc.
Package	200 pcs / bag

Get To Know About Us

Epozy is providing top national/multinational companies by designing, developing, and implementing RFID projects includes both software and hardware. We have always challenged our accounts to build together for better, smarter, more optimized, and sophisticated industrial solutions which are already core competencies of Epozy itself. We believe that effective communication is the key to project success.
