

altis teknoloji

pursuing perfection with you

Altis presents the next generation RFID-on-plastic tag optimized for your RTI, PLP and KLT assets; Altis Crafty Bold.

Thanks to its enhanced memory capacity, the new Craft Bold is the main component of your RFID RTI tracking projects that require GRAI, GTIN and SSCC compliance.

Extended read range of up to 7 meters ensures operability on large portals and dock gates. You can mount the new Craft Bold on plastic surfaces or hide inside assets. Fully customizable layout, including logo, text, barcode and numbers, makes it easier for users to work with.

Key Features

Altis Crafty Bold

- Optimized for reusable plastic layer pads (PLP), returnable transport items (RTI) and small load carriers (KLT)
- Fully compatible memory block and encoding with GRAI, GTIN, SSCC
- Easy to mount
- High reading performance
- Customized dual-sided full color artwork and visual printing

Altis Crafty Bold RFID Label

Altis Crafty Bold, 107 mm x 31 mm PVC label, which was developed especially for tracking your plastic transportation assets, increases the efficiency of your logistics operations.

The PVC label, which can be produced in different sizes according to demand, operates at UHF frequency and provides reading performance up to 7 meters. In this way, it is possible to effectively track assets not only on standard ramps, but also on wide doors.

Due to its special optimization for plastic surfaces, RF readings at different angles are captured seamlessly.

Logistic Management

Cargo Container Tracking

Asset Management

RTI Management

UHF 868 MHZ EPC Gen2 Class 1 RFID RTI tag, which can be printed differently according to demand, are compatible with the GRAI, GTIN, SSCC protocols and can be produced with the desired coding range from the factory.

According to the global supply conditions, Impinj R6, M730/750, Alien H9 and UCode U8/U9 chips are available inside.

Get To Know About Us

Altis is providing top national / multinational companies by designing, developing and implementing RFID projects includes both software and hardware. We have always challenged our accounts to build together for better, smarter, more optimized and sophisticated industrial solutions which are already core competencies of Altis itself.

We believe that effective communication is the key to project success. We listen to our clients whole heartedly and be sure fully comprehend their goals. Call us now and be sure that questions in your mind about RFID have already been solved here.
